

First Night Box Checklist

Have an upcoming move? Follow our free first night box checklist to prepare for your relocation!

- Clothes.** Pack pajamas, 1-2 changes of clothes, extra shoes, socks, and any other items you might need on the first 1-2 nights in your new residence.
- Bed Linens.** You may not have your bed assembled on the first night, and even if you do, you will want to have bed sheets and blankets that are easily accessible. Possible items needed: air mattress, sleeping bag, pillow, sheet set, blankets.
- Toiletries.** You will need all shower items, toothbrush/paste, bath towels, washcloths, hair care products, and *toilet paper* (staring this because it's really important :) ...)
- Medications.** Don't forget to pack your prescription medications and vitamins/supplements so they are also easy to access.
- Personal Items.** These items include phone chargers, laptops/tablets and chargers, sleeping accessories (like your noise maker/fans), books, and etc.
- Pet Care Supplies.** Don't forget Fido! Your pets may need their carrier, beds, food, medications, eating and drinking dishes, treats, and toys.
- Food and Water.** The last thing you want to do is have to make a run to the grocery store after a long, hard day of moving. Carry some snacks and PLENTY of water/drinks to hold you down until the following day.
